# TWO SURPRISES

Gutting and a Second Dorando in Rutti Get Maddock Feeling More Than Optimistic.

Nightly tryouts at the university on track and field are developing some sur-prises. Maddock has decided to hold iryouts for candidates, the men winning the most points nightly being selected as the timber upon which special selected as the timber upon which special effort while be made to develop the starts who will carry the colors of the school on the hill to victory. Two surprises have been sprung on Maddock, both being dark horses, Gutting and Ruther working out in the Gutting has been working out in the middle distance events, winning points middle distance events, winning points here and points there and manifesting splendid form. Last night he "thought he would make a try at the broad jump." He made the try and the mrst thing Maddock knew was that he had cleared 21.4 in neat fashion and showed as good form in his jumping as in his running. This was Rutting's first attempt at the tump and Maddock is confident that he will be the school's star in this event this year, and that with a little more training along this special line he will leave the Provo man's record of 21.9 far in the shadow.

islong this special line he will leave the shadow.

The other surprise was in a slightly built trim little fellow, a newcomer, and a man Maddock declares will prove a second Dorando-except in the disappointing features of the spaghetti eaters, are formances. The surprise party is gone other than one Ruttl. He has been running in the mile and showing better form every day. Ruttl has been on the road for a year, working for the work's sake, using country roads as his training ground. He has speed and endurance and Maddock has aiready placed him in the point winning class.

There are some other stars at the school on the hill this year and the work-outs being held nightly convince Maddock that he will have a good bunch of track and field men to meet the best out against him this year. Beinap of Ogden and Bowen of Layton are showing up well and Brinton, Walker and Swapp will bring home a few points this year in the broad jumps. With the shot Richardson is leading with his performances up to me showing up well and are pushing Richardson hard. Cole and Alley are both showing up well in the mile run with persons the will go to make the university team this year one to dread and foar.

### FISHERMEN GET BUSY IN VALLEY STREAMS

(Special to The News.)

Logan. April 6.—Fred W. Chambers, state fish and game commissioner, has given permission for the fishermen to get busy in the bottom land streams and had out as many chub, carp and suckers as they desire. There has been a regular stamped for licenses and there is some merry sport. The action of the commissioner was taken because of the complaint of the farmers that just when the law is out their busy time begins and they have little chance to do any fishing. Just at present, there is some pretty good trout fishing in the still waters and just what a man will do when he gets one of these is a matter that is troubling some conscientious fishermen.
